

Planning & Land Services

## Development Center Workshop

**When:** Tuesday, August 4, 2009 Noon – 2pm

**Where:** Public Services Building (Annex)

2401 South 35<sup>th</sup> St., Tacoma, WA 98409

Public Meeting Room (Conference Room A)

### Workshop Topic

**Emergency Vehicle Access or EVA** – When an emergency occurs, you want responders to be able to access your property as quickly as possible. The Fire Prevention Bureau will explain and answer questions relating to the importance of providing emergency vehicle access and showing EVA on site plans for building permit.

**Right of Way Preservation** – will be implemented on August 24. This regulation addresses new setbacks from county roads. Representatives with Pierce County Public Works will be present to answer questions.

**Permit Intake Process** – how to build an application package that can be successfully processed at your first visit. We will review the permit in-take process and the details that are needed on a residential site plan. As always we are pleased to answer your site specific application questions.

**Self Help Kiosk** – is an expedited permit intake process that allows you to submit an application for permit without having to wait in the Development Center lobby.

Bring your lunch and learn more about permitting, hope to see you there.
