

1 **Browns Point/Dash Point Draft Vision Statement – May 10, 2006**

2  
3 *Revisions from the May 10th meeting should be reflected in the following statement:*

4  
5 **VISION STATEMENT**

6  
7 The Browns Point/Dash Point Community, in keeping with its long history, envisions preserving  
8 our established residential neighborhood character and strong independent community identity.

9 The community highly values and looks to preserve our existing marine shoreline, natural  
10 environment, scenic quality, public shoreline access, and open space. Commercial development  
11 will provide small retail and business opportunities within existing commercial areas. To  
12 improve safety and connectivity of the community, we envision streetscapes for pedestrians and  
13 bicycles. With new development and redevelopment, we want to achieve a reasonable balance  
14 between individual choice, historic preservation, and design standards. Through continual  
15 neighborhood involvement, existing public facilities and services will be improved to address the  
16 needs of the community. Through the goals and policies in the Browns Point/Dash Point  
17 Community Plan, the community creates a legacy of diverse, family-oriented, safe, and desirable  
18 places to live and work, while preserving the strength of the local environment, economy, and  
19 character.
