

Rain Garden Gig Harbor Environmental Clubs

Students from Artondale Elementary, Voyager Elementary, and Kopachuck Middle School combined efforts with the Friends of Pierce County and Pierce County Public Works to plant a demonstration rain garden at Artondale Elementary.

The rain garden will be an ongoing activity for the Environmental Clubs and serve as an outdoor learning landscape for other teachers and students. Future plans will be to enhance the landscape around the rain garden by creating a backyard wildlife sanctuary.

Lessons:

- Water We Doing
- Watersheds and You

Project:

- School Rain Garden

Partnerships:

- Peninsula School District
- Friends of Pierce County
- Pierce County Public Works
- Environmental Clubs
- LRI
